

# Baruntse Expedition

## Introduction

A baruntse expedition is one of the adventures with beautiful mountain among the over 700-meter high peak from sea level. Barinste snow peak mountain has four ridge and four summits. A baruntse expedition, bounded on the east by the Barun glacier flowing north-south from Cho, to the northwest the ijma Tse glacier and the Hunku Glacier from the southeast boundary, Our expedition guides, and climbing sherpas are well experienced and has got a lot of practical experience since 2002

They have been in this field for the last two decades. So they could give all the necessary guidance to take what all precaution and expected danger and how to tackle them this enhances our expedition to have full confidence and courage.
